**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 6-9, 11-12 are rejected under 35 U.S.C. 102(b) as being anticipated by Boronka et al. (US 5,417,642).

Boronka et al. disclose a sheet finishing apparatus comprising a media path, knife 6 received in the elongated slot of first roller 5. Knife 6 is movable between a retracted position and a forming position thereby creasing the sheet and forcing the end of the crease to the elongated slot of movable anvil 9 (figures 1 and 2).

3. Claims 6-7, 11-13 are rejected under 35 U.S.C. 102(b) as being anticipated by Michalik (US 6,234,947).

Michalik discloses a sheet finishing apparatus comprising a media path, knife 23 received in the elongated slot of first roller 22. Knife 23 is movable between a retracted position and a forming position thereby creasing the sheet and forcing the end of the crease to the elongated slot of movable pinch device 43, 44 then to fold rollers 61 and 62 (figures 1 and 2).

4. Claims 6 and 14 are rejected under 35 U.S.C. 102(b) as being anticipated by Couturier (US 6,296,601).

Couturier discloses automated control of retractable knives 18 on a cutting cylinder (see figure 1).

***Claim Rejections - 35 USC § 103***

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claim 10 is rejected under 35 U.S.C. 103(a) as being unpatentable over Boronka et al. (US 5,417,642).

Boronka et al. do not disclose a second knife on the opposing cylinder however the examiner takes OFFICIAL NOTICE that it would have been obvious to one of ordinary skill in the art to substitute a second knife for the anvil for cutting the sheet material.

***Conclusion***

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
